

Locally Sourced Live Edge British Timber from the heart of East Sussex

Elephant Timber supply high-quality, kiln-dried timber slabs and planks. Each piece is hand-picked for its unique character and beauty, showcasing the natural edges and variations in grain patterns that make live edge wood so sought-after.

Who Are Elephant Timber Supplies?

We are a small family run business that supplies unique pieces of timber to woodworkers, builders, cabinet makers, interior designers, shopfitters and DIY enthusiasts who are looking for a piece of wood like no other.

We concentrate on supplying timber that has been grown locally. Carl and Costa are passionate about supplying live edge timber, much of it from locally sourced trees, and have been running the business since 2016.

We are proud that much of our timber comes from trees felled due to either ill health, storm damage, or because they have outgrown their intended space in domestic gardens. By sourcing much of our materials locally, we not only reduce our environmental impact but also contribute to the growth and prosperity of our region.

The Right Wood for Every Project

Our kiln drying process ensures that the wood is stable, reducing the risk of warping, cracking or splitting, making it perfect for a wide range of projects. Our live edge timber will bring warmth, character and natural beauty to your woodworking and finished product.

Bespoke Table Tops

We also supply exquisite, handcrafted finished table tops made from timber that is meticulously kiln-dried. We are dedicated to the art of transforming natural wood into stunning, one-of-a-kind tables. Our range of handmade, solid wood table tops are available with straight or live edges. Choose from our stunning selection of live edge wood from UK grown trees in a range of thicknesses and widths for your next statement furniture piece.

Our kiln dried timber is perfect for creating a variety of tables. You can choose to make your unique table from our natural live edge table top slabs, our book matched pairs of mirrored timber slices, or our rustic railway sleepers and wagon planks. All of these options will make an excellent table top. Once you have selected the best wood for a slab table and chosen your finishing product, the next step is to select the table legs. We can recommend some suppliers.
